----------	--------------------------------------	--	--

SECTION 5: THE HARD TRUTH -- DAMODARAN LENS

What's unreasonable in current pricing?

The S&P 500 at 7,520 implies forward earnings growth assumptions that

are heroic. T

The 10Y-2Y inversion at 43 bps has historically preceded recessions

with a 9-24

US PRE-MARKET BRIEFING

Thursday, May 28, 2026 | 9:35 AM EDT

Where's margin of safety thin?

Mega-cap tech: NVDA, MSFT, GOOGL pricing in 40%+ EPS growth

Consumer discretionary: Confidence is fading (93.1 and falling) but

Energy: Oil at \$90 is pricing in a sustained geopolitical premium.

Divergences to watch:

1. DXY at 99.3 near the top of its range, yet gold fell 2.47% to

\$4,439.00

SECTION 6: WEEKLY ECONOMIC CALENDAR

DAY	RELEASE	IMPACT	TIME (ET)
-----	---------	--------	-----------

Fri 5/29	Personal Income & Spending	HIGH	8:30 AM
----------	----------------------------	------	---------
